MANUFACTURERS OF 1927

Machinery for Wood Pulp and Paper Mills
Vertical and Horizontal Water Wheels
With Flumes and all connections

Wood Barkers, Wood Chippers,
Wood Pulp Grinders
Newest designs and highest efficiency

Washing and Beating Engines
With patent double hoist and tubs of either Wood or Iron

Improved Beaters of Umpherston Type

Hydraulic Pumps and Presses

Rag Cutters and Rag Dusters

Calenders *All Kinds of Super-Calenders*
Friction Calenders and Platers

Cotton and Paper Rolls with Patent Fastenings
Chilled Iron Rolls, Gears *Accurately Spaced and Planed*
Shafting, Pulleys and Mill Work
Special Machinery

Lockport Felts

Made by exclusive makers of Paper Makers' Felts, by an organization that devotes its entire experience to one line only, PAPER MAKERS' FELTS.

Latest types of Felt making machinery known to the industrial world, and our own special process backed up by 34 years' practical experience.

LOCKPORT FELTS HAVE NO SUPERIOR

Most of the progressive and successful paper mills use LOCKPORT FELTS and minimize their felt cost:

MAXIMUM { **Service** / **Results** / **Satisfaction** } **MINIMUM** { **Cost** / **Trouble** / **Delayed Shipments** }

Perfect in construction, uniformity in size and porosity.

Our special Textile Expert always available to study YOUR conditions at YOUR mill.

Post's Paper Mill Directory for 1927

Containing a complete list of the paper, pulp, and chemical fibre MILLS IN OPERATION IN THE UNITED STATES AND CANADA, together with classified lists of mills by goods made, an Index to Mill Officers and a Buyer's Guide to First Hands, giving names of manufacturers of machinery, appliances, and dealers in paper makers' supplies. There is also a carefully prepared list of General Paper Merchants in the United States, showing grades in which each one deals and indicating those who carry stocks.

Also lists of the rag and paper stock dealers; a list of the Paper Box Makers of the United States, divided in set-up, folding, corrugated box and shipping container departments; classified lists of manufacturers of paper bags and envelopes; of glazed, coated, waxed and gummed paper, and cardboard manufacturers; a very extensive list of makers of various kinds of paper goods, as well as a list of WATERMARKS used by the United States and Canadian trade.

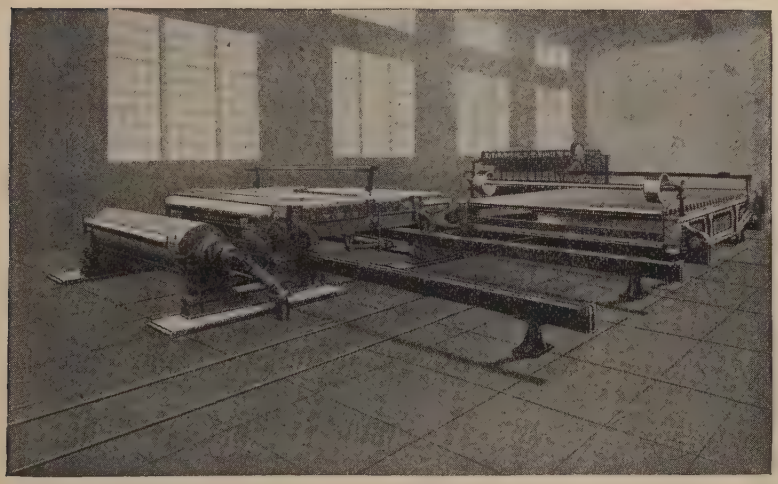
DOWNINGTOWN



Removable — Shakeable — Adjustable

FOURDRINIER

When wire changes are made on the Keystone Fourdrinier, the Table Roll and Suction Box Sections are removed independently, as two separate units, and the Couch Roll slid back to provide slack. In removing the Sections they are first raised a small fraction of an inch, a pin and a small casting removed and then the sections are lowered onto the rails and rolled out. Since the Table Roll Section is not raised enough to disturb the apron, the inlet adjustments are not affected. Furthermore, the machine rolls back into precisely the same position that it was before the wire was changed and production can be started without making any adjustments.

A Corner of Our Demonstrating Room

An Invitation

A visit to our Show Room is cordially invited.

Here are slitting and roll-winding machines and specimens of their work, some of which will no doubt prove of special interest to you.

A record of commercial and manufacturing needs for goods in roll form is registered in this collection.

New applications and new markets for your products may suggest themselves to you on inspecting these exhibits.

New methods of labor saving or waste saving or new processes may occur to you.

New ways of utilizing a by-product may be found; one factory's waste may be another's raw material.

We place at your service the experience gained in more than a score of years devoted solely to the development of slitting and roll-winding machines for universal service in paper and board mills, paper converting plants, wholesale paper warehouses and paper goods factories.

Visitors interested in saving money by saving waste and labor will find us willing to do our best to help find the way.

CAST IRON PIPE

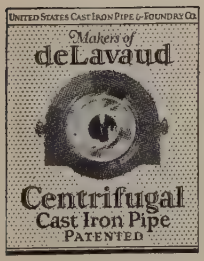
2″ to 84″ diameter

Bell and Spigot Flange, Plain End and Threaded Fittings—Standard or Special.

Cast Iron Cylinders for Paper Drying Machinery

Heavy Castings to Engineer's Designs.

Avoid costly leaks by installing United States Cast Iron Pipe



In the treatment of wood pulp by the sulphite process Cast Iron Pipe gives more satisfactory results than any other type of pipe owing to its greater power to resist rust and corrosion. This quality of enduring service is of value in all the pipe lines of the chemical industry.

For quotations or estimates address nearest Sales Office

BERMICO
Fibre Cores

Save 85% Freight, Cartage and Labor

They Cannot Unwind

They weigh approximately 14 oz. per foot, and save labor all the way along the line—in your mill, in transportation and in your customer's plant . . . .

Economical in first cost

We also make Spiral-wound Cores in all sizes

The Metal Patch which is used with our Medium Heavy Metal End (see illustration above) insures a tight-fitting end with no chance of turning or slipping on the core.

Let us figure on your core requirements. A word from you will bring our core expert to your mill, and you will be under no obligation whatever.

BROWN COMPANY

founded 1852

CORE DIVISION PORTLAND, MAINE

ESTABLISHED 1828

The Smith & Winchester Mfg. Co.

SOUTH WINDHAM, CONN.

BUILDERS OF

PAPER MAKING MACHINERY

B. S. ROY & SON COMPANY
WORCESTER, MASS.
ESTABLISHED 1868

Roy Calender Roll Grinder

Grinds the rolls true without removal from housings—in their own bearings.

Used with great success in hundreds of mills in this as well as many foreign countries.

We shall be glad of an opportunity to talk over the economy of the Roy Roll Grinder in your mill.

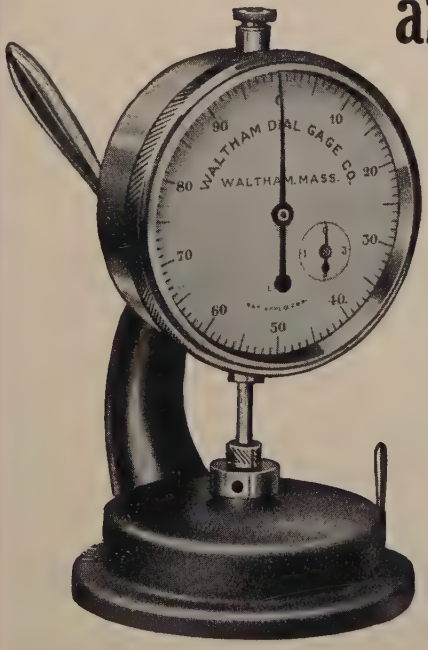
SAVE TIME, REJECTIONS and WORRY



Accuracy, Durability and Speed are embodied in the

WALTHAM DIAL GAGE

Our New Thickness Micrometer

larger and more rugged

Height 8 1-4 inches. Weight 7 lbs. **Dial** 4 inches diameter.

Capacity will measure up to one-half inch thickness.
Markings represent 1-1000 of an inch and easily read to 1-5000 of an inch.

Patented floating rack permits spindle to be snapped without injuring gage, thus permitting repeated and fast readings.

Price $50.00 net, 30 days, F.O.B. Waltham, Mass.

Made by manufacturers of the famous
RANDALL AND STICKNEY GAGE

New and Recent Developments in Valley Equipment

Voith High Pressure Stock Inlet
Valley Plug Valves
Valley Laboratory Equipment
Valley Size Tester
Niagara Beaters
Water Marking Device
Voith Centrifugal Pulp Screens
Valley Centrifugal Pumps
Valley Continuous Beaters
Valley High Speed Beaters
Bandless Beater Rolls
Valley Refiners (G. W. Pulp)
Valley Hydraulic Pressure Device for Super Calenders
Wolf Chippers
Valley Paper Tester

We are also builders of:

Agitator Equipment
Agitator Tanks
Acid Tanks
Stuff Chests
Blow Pits
Barker and Barker Attachments
Holland Beaters
Washing Engines
Bleaching Engines
Breaker Beaters
Washer Cylinders
Quick Opening Dump Valves
Cylinder Machines
Chippers & Rechippers
Diaphragm Screens
Counting Device
Paper Washers
Allen Steam Joints
Sulphur Burners
Loft Dryers
Dryers
Saws
Felt Washers
Wood Grapples
Laboratory Equipment:
Sheet Mould
Hydraulic Press
Hot Plate
Drying Oven
Experimental Beaters
Semi-Commercial Equipment
Wet Machine and Roll Skinners
Deckers
Post Stuff Pumps
Duplex Stock Pumps
Triplex Stock Pumps
Fan Pumps
Chip Screens (Rev. and Recip.)
Knot Screens
Wood Splitters
Cylinder Moulds
Press Rolls
Felt Rolls
Beater Filling
Couch Rolls
Pulleys and Gears
Bronze Semi-Steel, Lead and Iron Castings

THE BEST IN PAPER MILL PIPING BUT THE COST IS LESS

THE BEST IN PAPER MILL PIPING BUT THE COST IS LESS

Special Collar Flange Wood Pipe Joint

Special Paper Mill Wood Pipe has been proved the best pipe for inside use, and still it costs less. Other advantages are light in weight, leak proof, larger capacities, lower power cost, less friction, lasting qualities, no stock discoloration. So constructed that liquid conveyed touches no metal. Easy to install, easy to take apart without damage. It can't be beat.

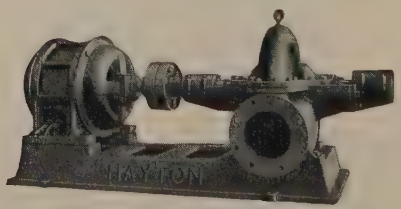
SAVE POWER — SAVE MONEY

Hayton Centrifugal & Triplex Pumps

"With us it is an Engineering problem"—



Hayton pumps are built to stand the severe service encountered in paper mills. Our line of pumps includes the following types:

WATER PUMPS
STOCK PUMPS
BILGE PUMPS
ACID PUMPS
LIQUOR PUMPS
BOILER FEED PUMPS
SPECIAL VALVES FOR STOCK

Our engineering and testing service is at your service

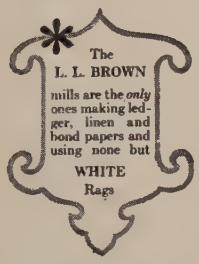
More Than Good Papers



L. L. Brown's Ledgers, Linens and Bonds are good papers, undoubtedly the best of their kind. Yet they are something more . . . Symbols of quality and excellence . . . Examples of traditional American craftsmanship . . . Standard bearers of honorable business.

Their use by you and your customers insures a high type of work, which inferior papers could not produce—or inspire. Their in-built character and integrity reflect the careful workmanship of a host of craftsmen who have known good paper-making for many decades.

The L. L. Brown Mills are the only ones making ledger, linen and bond papers and using none but WHITE rags

Deckers, Pulp Thickeners, Sulphite Pulp Washing Machines, De-Inking Machine, Hard Lead Fittings for Sulphite Mills, Quick Opening Clean Out Valves, Winder Mandrels, Rewinder Stands and many other Mill Specialties.

We Build Special Machinery for Special Uses

THOMPSON MANUFACTURING COMPANY

LANCASTER, N. H.

SLITTER GRINDING MACHINE

This machine does very rapid and accurate work on both top and bottom slitters, and requires very little attention from the operator.

When not in use on slitters, rest can be swung into place and it makes a very handy machine for any and all light grinding.

We send these machines to responsible parties

ON THIRTY DAYS TRIAL

At end of that time if not satisfactory they may be returned and we pay freight both ways.

In ordering kindly give size of holes in both top and bottom slitters, that we may equip machine with proper bushings.

Price complete, with emery wheel, $150, f. o. b. Lancaster, N. H. Machines in stock for immediate shipment.

We Manufacture

Special Chilled Cast Iron Bottom Slitters, Steel Band Slitters and Top Slitter Holders

WARREN IMPROVED CALENDER DOCTORS

WITH FLEXIBLE BLADES, UNIVERSAL ADJUSTMENT AND CONTROL

Patented in United States, Canada, Great Britain, France, Germany, and Other European Countries

The Doctors can be operated into or off working position by limited rocking motion controlled by hand lever which locks all Doctors by latching into adjustable quadrant. The pressure applied on Doctors is evenly distributed over every inch of every Doctor by means of universal connection of Doctors with adjustable quadrant and hand lever, the Doctors being properly balanced so as to assure easy operation. The flexible blades conform to the rolls giving perfect doctoring effect with minimum pressure. Doctors may be operated on continuously without scoring or injuring the polished surface of the rolls. Individual Doctors may be unlatched and rocked away from the rolls for cleaning purposes without interfering with universal control of other doctors. Doctors are constructed of steel, light and strong, and may be fitted to any type of paper machine calender.

HOWARD BOND

WATERMARKED

"THE NATION'S BUSINESS PAPER"

Always renowned for its most brilliant, refined color and unusual strength, Howard Bond now has an added feature—it will positively lie flat. In the perfection of a new manufacturing process, we have solved the difficulties which have heretofore interrupted the speed of modern rapid printing presses. Write for samples of our paper.

Compare It—Tear It—Test It—and you will Specify It!

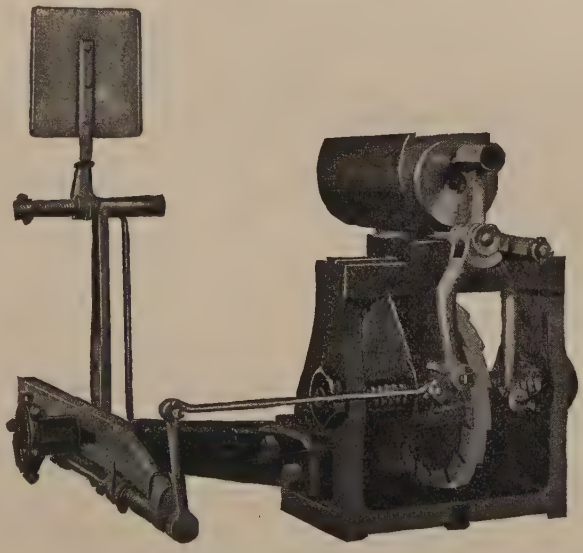
Reduce Your Wire and Felt Costs

GILBERT & NASH WIRE GUIDE



has proven by actual tests that it increases the life of wires 25 per cent. It prevents side travel of wire over suction boxes, cracked edges and loss of selvage, which shorten the life of wires.

OUR AUTOMATIC WET FELT GUIDE does away with guide straps—holds the felt in any position—in fact, does away with all guide strap difficulties and increases the wearing qualities of the felt.

GILBERT & NASH COMPANY

MENASHA, WISCONSIN

Makers of

Wire and Felt Guides, Suction Box Covers, Patent Dandy Stands.

SHERBROOKE MACHINERY CO., Limited
SHERBROOKE, CANADA

IMPROVED PAPER MACHINERY CO.

MANUFACTURERS OF

PULP AND PAPER MAKING MACHINERY

INCLUDING

PNEUMATIC MACHINES Built in single units or in batteries for use as a money maker when used to remove the valuable fiber in the waste water from blow pits, wet machines, thickeners, cylinder and Fourdrinier machines.

SAVE-ALLS

THICKENERS The best means of thickening sulphite or other free stock, will deliver uniform stock continuously at minimum running expense.

FILTERS Mechanical, of large capacity, can be used in connection with sand filters.

"IMPCO" KNOTTERS, KNOT SCREENS, SLIVER SCREENS
For sulphite, sulphate, soda, ground wood and paper stock. Less than 1 h. p. required for one machine. Capacity up to 50 tons. Simple belt drive. No gears or sprockets. No packings. Slow speed. Quickly detachable plates. The ideal machine for removing large shives, slivers, knots and foreign material from stock before fine screening.

"IMPCO" CENTRIFUGAL SCREENS For screening sulphite, sulphate, soda, Kraft and ground wood.

"IMPCO" TAILING SCREENER The Tailing Screener is the latest addition to our closed system for ground wood pulp and is used to screen the tailings from Centrifugal Screens.

PULP THICKENERS OR DECKERS Built in single units or in batteries for use as the standard machine for thickening ground wood or other slow stock.

THICKENERS
FILTERS

SPECIAL DECKER WITH PRESS ROLL Delivers stock about 18% dry.
AS SAVE-ALLS AND THICKENERS

"IMPCO" RECLAIMER For recovering waste of any kind.

VARIABLE SPEED COUCH ROLL DRIVES For Deckers and Decker Save-Alls. Insures greatest efficiency of decker machines. Allows the use of fine wire. Speed of couch can be made to correspond exactly with wire speed.

WASHING MACHINES Very effective to remove dirt and coloring matter in suspension and solution, also for removing acid or bleach from pulp or paper stock.

CYLINDER MOULDS Made in all sizes, absolutely non-sagging, of exact construction.

IMPROVED BUILT UP PRESS ROLLS Can be built in large diameter.

SUCTION ROLLS Of rigid construction. May be run with press roll. No packing of any kind, very small power.

FELT COUCH ROLLS Patent spiral winding insures uniform elastic surface of long life.

SPECIAL MACHINES Designed and built to order.

REPAIRING We make a specialty of repairing cylinder moulds.

WESTON

LEADERS IN LEDGER PAPERS

THE

BYRON WESTON COMPANY

Mills are the only ones specializing in the Production of LEDGER PAPERS.

Specialization Spells Supremacy

BYRON WESTON CO.
LINEN RECORD

100% all new white rag stock for Municipal, County and State Records and for the Accounting of large Corporations and Financial Institutions.

BYRON WESTON CO.
HINGED RECORD

This is the same paper as Weston's Linen Record with the addition of the B-W Co.'s built-in-the-paper hinge for loose leaf books.

B. W. CO.'S
WAVERLY LEDGER

For general commercial requirements a splendid writing and printing paper.

B. W. CO.'S
FLEXO LEDGER

The same grade as Waverly made with the B. W. Co.'s patented hinge for loose leaf books.

B. W. CO.'S
TYPOCOUNT LEDGER

For the particular requirements developed by machine bookkeeping.

B. W. CO.'S
CENTENNIAL LEDGER

For the great variety of uses requiring a ledger at a moderate price.

B. W. CO.'S DEFIANCE BOND

Bears the same relation to Bond papers as Byron Weston Co. Linen Record does to Ledgers

IN a business as diversified as ours, it is always difficult to keep the range of our products before the Trade. Small wonder that some of our oldest friends go elsewhere for goods they would be only too glad to buy from us. Below are brief reminders of the more important lines:

PAPER:

"Drum Head Kraft" Wrapping Paper, 25-80 lbs. basis; in Brown, Gray and Green. On special order, Drum Head Kraft can be furnished in stripes or with surface-marking.

"Sachem Fibre," 25 lbs. and 30 lbs. basis only; a natural, dry-finish, all-Sulphite wrapper, popular in many trades.

Specialties: Various special papers can be furnished upon request, in both Kraft and Sulphite. Envelope, Black and Gasket Papers; Paper Twine, Twisting Papers, etc., etc.

PAPER BAGS:

Grocers' Bags, including the well-known Animal Line of "Not-A-Seam" Automatics. Coffee, Candy, Notion, Bread, Sandwich, Pie, Cake, Doughnut, Pastry, Glassine, Potato Chips, Carton-Liner, Peanut, Bacon & Lard-Liner, Nail, Sugar, Banana, Millinery, Shirt, Shirtwaist, Handle, Garment, and Cigar & Tobacco Bags; *The* UNION SHOPPING BAG. Widest facilities for the designing and manufacture of Special (made-to-order) Paper Bags, and two of the most completely equipped printing-plants in the industry.

PAPER SACKS:

A variety of both single and duplex Sacks—fancy and coarse, stock and special work—for containing Flour, Cereals, Meals, Feeds, Coal, Charcoal, Kindling Wood, Garden Truck, Fertilizer, Lime, dry Chemical Products, etc., etc. All facilities for designing effective trade-marks and label-forms and for the printing of the same in large volumes.

CRANE'S BUSINESS PAPERS

For four generations the excellence and durability of Crane's Papers have caused them to be accepted wherever the best paper is required.

Crane's Bond is used for currency, securities and nearly all important documents and records, as well as for the best stationery. Its smooth surface and firm texture adapt it especially for fine engraving and clean typewriting.

Crane's Japanese Linen offers a splendid choice for business stationery and for circulars and folders in which a distinctive character is aimed at.

Crane's Old Berkshire is ideally suited for semi-personal noteheads, announcements, and other purposes where a softer finished paper is preferable to the crisper bonds.

All three are desirable for the sort of house that requires its stationery and documents to reflect the greatest prestige and dignity on its transactions.

100% selected new rag stock
122 years' experience
Bank notes of 22 countries
Paper money of 438,000,000 people
Government Bonds of 18 nations
